

WAGNER FC9900 PLUS

\$3,995.00

Description

The unique FineCoat FC9900 Plus is suited to a wide range of applications. The super fine spray pattern is perfect for doors and trims, furniture, cabinetry and metal work. The lightweight gun can be infinitely adjusted with paint flow, air and spray fan settings all positioned within easy reach right on the gun. The 5-stage turbine will spray all types of paints, primers, lacquers and stains at very low pressure resulting in minimal overspray, and material savings of up to 40% when compared to high pressure spraying. Comes complete with 5 StageTurbine, 9 metre Air Hose, Maxum II Gun with #4 needle. Remote 2 Ltr Pot & Whip Hose available as an optional accessory. This remote system allows for increased spraying time between re-fills without adding the cost and weight of a bulky air compressor. This system reduces fatigue by removing the weight of the paint at the gun and makes it easier to spray inside cabinets and other hard to reach areas. Please contact us for more information about this.

Specifications:

Hose Length: 9 m

Pressure: 10 psi

Weight: 15 kg
