

WAGNER PROSPRAY PS3.25 - HIGH BOY

$6,795.00

Description

The WAGNER Airless unit ProSpray 3.25 is ideally equipped for medium-sized emulsion projects and gluing work. With additional accessories, water-thinnable and solvent-based paints, two-component coating materials, release agents, oils, undercoats, primers and fillers can also be processed. Thanks to the tires suitable for construction sites, the airless paint sprayer is an ideal companion even on difficult terrain. New packings, an inlet valve pusher, the brushless motor and the automatic oiling guarantee low-maintenance operation of the emulsion device. Another typical ProSpray product feature is the DigiTrac Control digital display.
